OUR TECHNOLOGY

Our SmartFlex technology offers flexible, body-mapped protection that hardens on impact, then returns to its original state. These waterproof, machine-washable pads keep you comfortable and dry.

Body-mapped

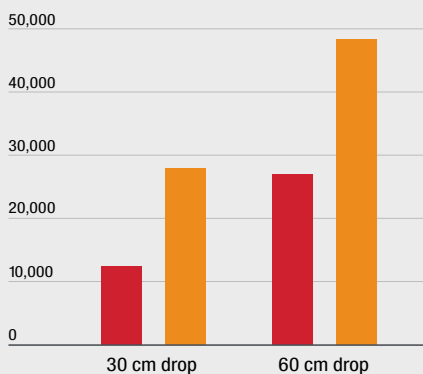

Hardens on impact

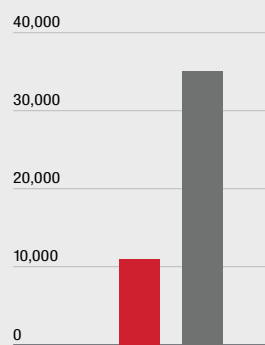

Waterproof

How well does SmartFlex perform?

- Lower numbers mean less impact is passed through pad to wearer. SmartFlex absorbed more than double the impact vs. competitor.
- SmartFlex pads performed better even with thinner pads

- SmartFlex 21 PCF/25
- D30 5.11 Lite Knee/30

- SmartFlex Plaque 1/4"
- McDavid Hex 3/8"

RE ZRO®

RE ZRO® utilizes advanced material science for efficient energy management during impacts. Its materials consist of 'supermolecules' which absorb significant energy by fracturing and recombining during impact. This results in powerful shock absorption, and the supermolecules quickly return to their ZRO state, ready for the next impact.

Fully biodegradable*

100% recyclable*

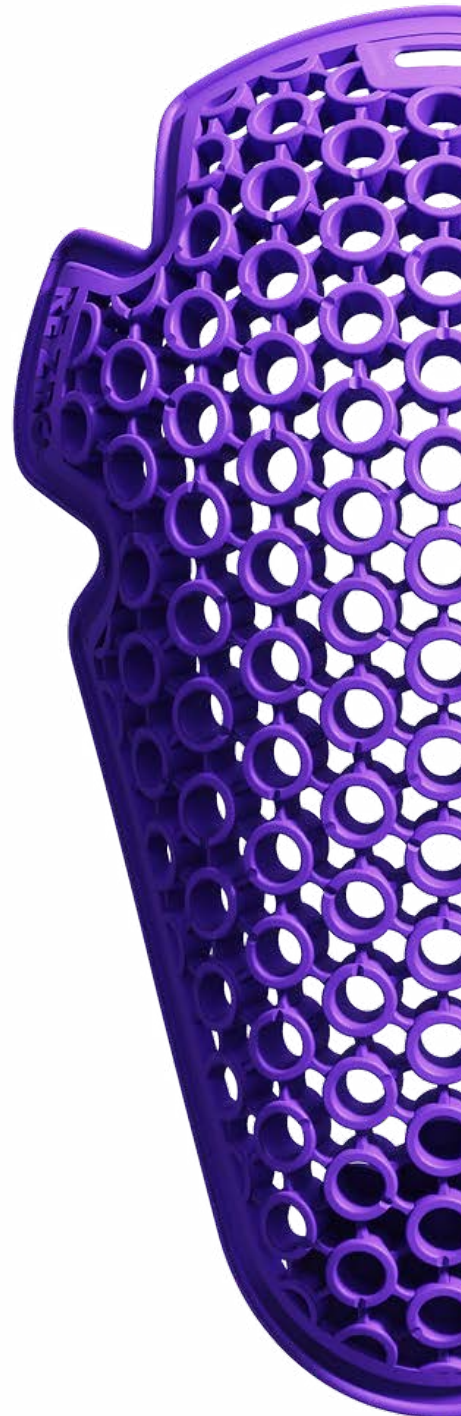

Flexible

Lightweight

CE 1621 Levels 1 + 2 Certified

*Ask your local recycling authority if recycling facilities are available for this type of product. *RE ZRO protector contains materials that have been independently tested for biodegradability. RE ZRO TPE material achieves the biodegradability of 14.14% over 90 days in accordance with ASTM D5511-18 & ISO 15985 : 2014. Actual biodegradation rates will vary in biologically-active landfills according to the type of plastic used, the product configuration, and the solid content, temperature and moisture levels of the landfill. This product is not considered biodegradable in some States including California, Maryland, or Washington. For more information please visit www.re-zro.com
