OUTDOOR

064-0633 HIKER W DX 3L VENTILATED JACKET

B57

P99

Hiker 3L jacket is developed for demanding outdoor use. Made from lightweight yet dense DrymaxX® Nano fabric this jacket offers great performance and strength for versatile use. Extra reinforcement ripstop material is positioned on the back and sleeve end areas to protect against abrasion. The jacket has a 3layer structure where outer fabric and inner mesh are laminated together with ultra breathable DrymaxX® Nano membrane. All details are technical such as 3D adjustable hood, sleeve end and hem. The cut in this jacket is articulated with special angled sleeve construction with long ventilation zippers. With plenty of zippered pockets which can be easily accessed while wearing a backpack.

064-0595 **HIKER W VENTILATED JACKET**

B05

B57

Hiker Ventilated is designed for hikers who demand only the best equipment. Mosquito netting on the hood, large chest pockets and a tough look make this camping jacket a versatile jacket for hiking and camping. The Hiker jacket has an integrated netting to keep out insects on the front of the hood. The netting is easy to install using the zipper around the front edge of the hood. The netting can also be easily wrapped back into the pocket on the hood. The jacket is membrane-free but DWR-treated, which makes the jacket water-repellent. The windproof and highly breathable fabric of the jacket provides protection in the event of rain. The jacket has zippered ventilations under the arms to maximize airflow in warmer conditions. The DWR treatment does not contain PFCs that are harmful to the environment. Combine with Hiker Women's Ventilated pants.

064-0601 HIKER W POLAR FLEECE JACKET

B58

D48

D77

The Hiker Polar fleece material is dense, thick and windproof, making it a great choice for both cool spring and early fall. Made from a comfortable teddy fleece, this jacket is a great choice for camping and leisure. The appearance and technical materials of the Hiker Polar fleece make it a great intermediate layer under a jacket and as it is. The soft fleece material is airy and warm. The Hiker fleece is short in length and features a high collar and a zippered chest pocket. The well-fitting cut makes sure that the cold does not creep in from the cuffs or hem.

064-0613 HIKER M VENTILATED JACKET

B05

B57

Hiker Ventilated is designed for hikers who demand only the best equipment. Mosquito netting on the hood, large chest pockets and a tough look make this camping jacket a versatile jacket for hiking and camping. The Hiker jacket has an integrated netting to keep out insects on the front of the hood. The netting is easy to install using the zipper around the front edge of the hood. The netting can also be easily wrapped back into the pocket on the hood. The jacket is membrane-free but DWR-treated, which makes the jacket water-repellent. The windproof and highly breathable fabric of the jacket provides protection in the event of rain. The jacket has mechanical ventilation holes under the arms to maximize airflow in warmer conditions. The DWR-treatment of the jacket is PFC-free. Combine with Hiker Men's Ventilated pants.

ACTIVE SPORT

086-0780 FLOW W 3L DX JACKET

C41

P99

With the Flow 3L DX jacket you are always well protected and safe from the storm! This lightweight rain jacket offers maximum functionality for biking and multisport activities. Jacket packs down small, so it's easy to take with you and use when the weather changes quickly. Drymaxx® Nano fabric with 3-layer construction is made of partly recycled polyester and offers superb breathability. If the pace heats up, upper back ventilation regulates airflow through the jacket. All small items that you may need to grab quickly can be stored in the front and back zip pockets. To improve visibility, all prints has been made reflective, so you'll be seen after dark.

The Tracks shorts are a great choice for versatile and active outdoor activities, cycling and training in spring and summer. The shorts combine a very breathable and stretchy material with a sporty look. The waist is adjustable and air can circulate through the laser-cut holes placed at the thighs. For even greater breathability, the thigh pockets can be opened if necessary.

Airlite lightness for all weather! Women's Aero 2.5L jacket is for those who train whether it's raining or shining, this jacket has you covered. It has highly breathable membrane with 20K/20K values and ventilation on the back side prevents unpleasant moisture accumulation inside the jacket during training. The jacket packs down small to its own hood, so it's easy to take with you and use when the weather changes quickly. Hood is easy to fold as a collar using the loop on the back of the hood. The slanted zippered hand pocket on the front is easy to use with both hands when biking. With reflective details you will be seen after dark whether you're in the city or on the trails.

Aero windbreaker provides effective protection when you are moving in cool or cold, windy weather. Because there is no membrane, windbreaker is very breathable and allow perspiration to escape while you are active. The fabric is partly recycled Graphene Taffeta which helps to keep body temperature stable. Because of minimalistic elements, thin and compressible fabric, jacket is light and easy to packaway to its pocket inside and stuff into your backpack when you're training. To keep from getting cold, slip it on over your t-shirt as soon as you begin to feel chilly. Reflective logos ensure you will be seen after dark, whether you're in the city or on the trails.

A perfect fit for the office, city bike rides, after works, you name it. In this fabulously versatile shell coat, Halti's stunning outdoor features are brought to urban conditions. On your way to a business meeting on a bad weather day, just wear Tokoi and you can forget your umbrella. Thanks to our signature Halti DrymaxX® All Weather fabric, you'll navigate long, rainy city days completely warm and dry. Long side zippers allow easy access to the pockets of your jeans. They make a big difference, adding extra room for movement – you'll notice it every time when biking and hopping on and off public transport. Add an extra layer underneath and you'll go far into the autumn. Tokoi is a high-performing, simple parka for complex city life. That said, it's just as great for weekend hikes in the woods. With Tokoi, you'll always feel smart and well prepared. Especially when there's a chance of wind or horizontal rain – or both. To make sure you won't go unnoticed in the late city nights, Tokoi is finessed with stylish black reflective details. Tokoi is made of recycled polyester and is one of Halti's monomaterial pieces. Monomaterial refers to a product composed of a single material or fibre. Monomaterial design means that the garment is easier to recycle back to raw material. In other words, choosing monomaterial makes the recycling process more efficient resulting in premium quality recycled yarn – and therefore reduces the use of virgin materials.

The Kurvi parka defies the urban laws of nature. It is minimalistic, super technical and light as air. It has everything you need and nothing you don't. Kurvi is a perfect companion as you navigate through the everyday city life, no matter the weather. The jacket can quickly be packed in its own hood and helps you travel light. A winning choice for those who are not willing to compromise between functionality and aesthetics. The Halti Drymaxx® All Weather 3L fabric is made by laminating three layers together. Thanks to the innovative material, there is no need for lining. This parka breathes effortlessly and its features will impress in all conditions. The relaxed fit gives it a stylish character. Long side zippers offer great mobility, be it by foot, bike, kick-scooter or scooter. The vent at the back maximizes air flow. To make sure you won't go unnoticed in the darkening nights of August, Kurvi is finished with stylish reflective details. Thanks to the relaxed fit, Kurvi is easy to slip over any outfit. Wear a down jacket underneath and you'll enjoy this multi-functional favourite from early spring into late fall. The men's fit is relaxed, women's is oversized—choose your favorite look. The look of the women's model can easily be adjusted with a drawstring at the waist. This product is made of recycled polyester and is one of Halti's monomaterial garments. Monomaterial design means that the garment is made of one material or fiber and is therefore easier to recycle into raw material, as the fibers no longer need to be separated. In other words, choosing monomaterial makes the recycling process much more efficient, and leads to high-quality recycled thread and thus reduces the use of virgin materials. This is why we call all our monomaterial pieces 'recycle-ready'.

065-0435 BLOIS UNISEX ANORAK

B55

Blois is a casual and urban windproof summer jacket, featuring a unisex design and practical spirit. The zippers in the front and side guarantee quick and easy dressing. The recycled material gives the jacket a rough look. The Blois dries quickly after a wash and looks effortlessly stylish, no matter what. The thigh-length jacket has a shaped hem which brings extra coverage. The raglan sleeves guarantee a smart fit for everyone. Customize the jacket's silhouette with the adjustable back waist and enjoy a variety of different styles. The lightweight jacket does not have a lining, yet still it reliably breaks the wind and shelters you from light rain. Blois can be packed in its own pocket and tied around your waist – becoming a casual bum bag that fits your phone and keys. We can't imagine a better fit for trekking or summer festivals. A resourceful outdoor enthusiast might recognize another hidden potential in this seemingly urban piece: Blois is designed for windy and active summer days in the city – but it also has the potential to be the perfect match for a ski trail.

Baana is a half-sleeved, oversize-style summer shirt. It is designed for the hot summer days when the asphalt seems to melt. The seersucker fabric breathes with ease, feels airy and dries fast. Baana can be combined with anything: shorts, skorts, skirts and tights. The raglan sleeves offer a flattering fit for everyone. This summer shirt delivers wonderful functional features for all urban activities. It has a sharp yet relaxed character, suitable for informal and a bit more formal occasions. Don't worry if this shirt becomes your absolute favorite and needs to be washed on a daily basis. Baana is made of an extremely durable material that is also completely recycled. For men, no further styling instructions are needed. For women, try tucking the hem underneath a skirt or turn the whole thing into a playful tie-front top. Baana is made of recycled polyester and is one of Halti's monomaterial pieces. Monomaterial design means that the garment is made of one material or fiber and is therefore easier to recycle into raw material, as the fibers no longer need to be separated. B04

B55

Kevo is extremely comfortable, light and durable. The adjustable chin strap ensures a secure fit, even on the windiest days. The seemingly relaxed hat impresses with its technical features: it repels water and dries quickly. The wide brim shields your eyes from the sun and sudden showers. It also protects the face and neck from the sun – and helps to keep your head cool. The classic colors and clean lines give Kevo a timeless look that will complement any outfit, whatever the weather. Wear it with your favourite jeans and a t-shirt for a casual look, or dress it up with a hoodie, blazer and boots for a more trendy appearance. Whether you're cycling, running, watching the band at the summer festival or just hanging around, this urban hat has you covered.

087-0432 HIKING WINTER WOMEN SOCKS

P00

Mid-high technical hiking socks for women. Toe linking is made with seamless technology. The construction is a combination of sports sock and wool sock. Merino wool together with acrylic goes through the whole sock. Added elastane stretching areas to keep the sock in position. The foot part has an extra terry construction for good insulation. The calf is reinforced with Lycra for better stretch and fit. These women's hiking socks consist only mulesing-free merino wool.

SIZE: 34-36 - 37-39 - 40-43
