NOTHING BEATS
THE FEELING

OUR HISTORY

It all started in 1981 with the founder of Newline, Helge Petersen, hanging in a parachute between sky and earth. Back on the ground he wondering why his suit was wet, but the parachute already dry.

With a background from the Danish Special Forces and many years as a runner, he used the parachute to create an innovative range of functional training products with a focus on the right details and great comfort.

This is still the brand DNA.

NOTHING BEATS
THE FEELING

SOCIAL DOPAMINE

For SS24 we continue highlighting the benefits of running in comfort materials - but also the positive impact on your brain and your body while running.

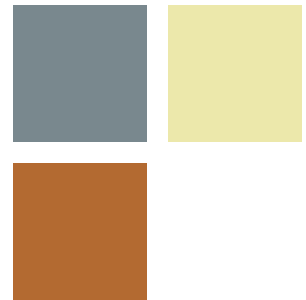

Dopamine is released in our brain, when we exercise and run, creating positive feelings, that makes you want to repeat your training to achieve that positive feeling over and over again.

Newline wants to share that dopamine feeling among all runners - that is why we call SS24 for "Social dopamine".

THE COLLECTION

Colours palette for the SS24 are earthy tones on the unisex range. Men's is spiced up with a brownish orange, while women's features brighter but still toned down blue and yellow tones.
